Sub: Revision of Late Registration Charges

Ref: Senate 44 (Agenda Item No. 44.14) dated August 23, 2017.

The students have to register for their courses to be offered during the forthcoming academic semester in accordance to the timelines specified in the duly approved academic calendar. However, for students who failed to register for their academic session/semester as per the academic calendar/registration schedule, there is a provision of late registration by paying the prescribed late registration charge.

In order to ensure that the provision of late registration is not misused, which negatively affect the academic discipline, the Senate has revised the late registration fee from the current level of Rs. 1,000/- to Rs. 5,000/- with immediate effect.
